Joseph Andrus, Principal, International Tax, PricewaterhouseCoopers (CONFIRMED)

Charles Erivona, Senior Manager, Financial Services Transfer Pricing, PricewaterhouseCoopers (CONFIRMED)
discussion draft of transfer pricing for global trading activities. Although the IRS has not yet finalized the proposed global dealing regulations, the OECD, earlier this year, issued a discussion draft on the attribution of profits to permanent establishments (“PEs”), with specific provisions for banking operations.

This session will provide an update of how the global trading operations may be treated by select OECD member countries, together with discussion, from a U.S. standpoint, of the recent OECD discussion draft on attribution of profits to a PE.

3C. Money Laundering – Hot Topics

New twists on KnowYourCustomer enhanced due diligence, account opening and recordkeeping, correspondent banking, Suspicious Activity Reporting, What’s Ahead for the Securities Industry and Investment Managers, and New Web-Enabled Compliance Technology

3D. Credit Risk Management

The Basel Accord creates a number of interesting credit risk challenges for sophisticated financial institutions. However, it is important to consider its implications in the context of a robust risk and return framework. This discussion focuses on some of the key building blocks that must
be in place to effectively manage credit risk. Topics include the measurement of risk, pricing for risk and active portfolio management.
