

Classroom 3000 AV Instructions

Getting Started

- Touch the Crestron **touchscreen** to begin.
 - **Sources** (Computer, Laptop, Apple TV) are on the left-hand side of the panel.
 - **Room Controls** (lights, displays, cameras, etc.) are on the bottom row of the panel.
- Select a source and adjust room controls, if desired.
- Once a source is selected, the displays will power on. You can also select to turn on/off either display.

Computer | Opening content from a flash drive or the cloud (Duke Box)

- Select **Computer** as the source.
 - Flash Drives:
 - For best performance, plug directly into an open USB port on the computer in the equipment cabinet (behind the teaching seat location).
 - Duke Box:
 - Double-click the Duke Box shortcut on the desktop
 - Log in using your NetID and password, then navigate to your desired folder/content.

Laptop

- Select **Laptop** as the source.
- There is an HDMI cable on the conference tabletop. HDMI to USB-C adapter is in the equipment cabinet drawer. The system will automatically recognize your device once connected.
- If using an Apple Device (Macbook, iPad, or iPhone), connect wirelessly with Screen Mirroring via the Apple TV source (see Apple TV below).

DVD

- Select **DVD/Blu-ray** as the source.
- Insert the disc into the Blu-ray/DVD player located in equipment cabinet.
- Use the touchscreen controls to navigate the Blu-ray menu options.

Apple TV

- Select **Apple TV** as the source.
- Go to **Screen Mirroring** on your Macbook, iPad, or iPhone, and select **DLSATV3000**.
- Touch mirror and select “on”. It will mirror your device on the displays.

Shutting the System Down

- Log off and restart the computer if you have logged into any personal settings.
- Do **not** forget to remove your tech (flash drives, DVDs, etc.)
- On the Crestron touchscreen:
 - Turn off displays.
 - If the last class of the day, touch **Exit** on the upper-right side of the screen and then select **Yes**.

Classroom 3000 AV Instructions

- If there is a class after yours, do **not** exit out of the Crestron touchscreen. Please leave the system on.
